Dear Juliette Fassnidge.  
Thank you for taking the time to view my CV.

Below I have some information about myself  
and my work history.

Also, I have left a link directly under highlighted  
in blue to go straight to my work.

Regards.

Nick.

### **Relevant Skills and Experience 1 year**

HTML  
CSS  
javaScript  
PHP  
Linux  
VS Code  
Apache

### **Other Relevant Skills and Experience**

Team management  
Project management  
Marketing  
Customer service  
Training

### **Year one of my new journey**

In February 2020 during the early stages of the pandemic,  
our whole team was placed on furlough.  
Instead of taking that as a negative, I saw it as a great  
opportunity to learn something new....

During my time in isolation, I read the Jon Duckett books  
on HTML, CSS, and javaScript.  
And completed a studio web course on JavaScript and PHP.  
Between then and now restrictions have been lifted several  
times, but even whilst being back at work full time, I've  
still found time to code and problem solve almost every day.

### **My previous career**

For the last twenty-four years, I have been working in the  
hair industry.  
During this time I have developed skills in all aspects of  
hairdressing.  
Along the way, I have worked for large companies with  
multiple franchises, to smaller companies alike.  
I have worked in management, run my own business,  
and had the rewarding opportunity to be involved in  
education.

### **My Interests, hobbies**

For as long as I've been working, I've also had an interest  
in djing.  
When I was seventeen I bought my first pair of record  
decks.  
After teaching myself to mix, I managed to get a gig  
at a few local warehouse parties.  
That lead to me getting some regular work at a club  
in Maidstone.  
And a few years later, some sets on a radio station.

For many years now, much of Djing has gone digital.  
And during that time I have had lots of experience optimizing  
machines to get the best out of music software.

### **Education and employment history**

Swadelands school 1989 - 1994. GCSE's  
The Cornwallis school 1994 - 1996. Business studies GNVQ  
Impressions hairdressing 1996 - 1999.  
Zig Zag hair company 1999 - 2012.  
Self-employed 2012 - 2014.  
The hair experts 2014 - 2018.  
Hair revolution 2018 - 2019.  
The hair experts 2019 - present.

### **To conclude**

Over the last 12 months, I have developed an even greater  
passion for computer-based technologies.  
I get a real buzz when I fix a bug or learn a new technique.

I am used to working under pressure, I have excellent  
communication skills and I would relish the opportunity to  
begin a new career in this industry.
